

STEFFI ANN TANYA AMPER

FULL STACK DEVELOPER

(431) 588-0151 | steffi.amper@gmail.com | Winnipeg, MB | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full Stack Developer proficient in various JavaScript frameworks and backend languages for creating responsive and high-quality software applications. An effective team collaborator with a demonstrated adaptability to quickly learn and apply new technologies. I have experience in the end-to-end development of web applications, including designing user interfaces, creating RESTful APIs, testing, deployment, and participating in peer review processes. This comprehensive experience has provided me with a strong foundation in full stack development.

WORK EXPERIENCE

FULL STACK DEVELOPER (Coop Student)

Aug 2024 - Dec 2024

Johnston Group Inc.

- Participated in the end-to-end development of applications, from the user interface to the database, including developing, testing, and deploying new features while adhering to the company's standard development process.
- Conducted a thorough analysis of an existing RPG codebase and rewrite the application using .NET technologies, ensuring a seamless transition while preserving business logic and functionality.
- Created APIs to enhance application functionality and ensure seamless integration with other systems.
- Collaborated with cross-functional teams of developers and business analysts to ensure each deliverable met user requirements and business goals, while maintaining a high standard of quality and functionality.
- Engaged in peer review processes to maintain a consistent and high-quality technical approach.
- Enhanced internal processes by designing and implementing automated workflows using Airflow, Python, and Docker.

APPLICATION SYSTEMS ENGINEER/CONSULTANT

Feb 2020 - Aug 2023

Fujitsu (WeServ Systems International, Inc.)

- Managed end-to-end development of applications, including creation, design, programming, testing, and deployment, while complying with company's standard development process.
- Developed web and desktop applications based on client requirements that met client's acceptance standards and were delivered within agreed-upon timeline.
- Resolved bugs such as basic functionality inconsistencies with specifications; implemented changes based on client-approved requests to improved application quality and cater changes in specifications.

SOFTWARE TEST ENGINEER II

Oct 2015 - Feb 2020

Timex Group (TMX Philippines, Inc.)

- Performed all levels of testing, including performance, functional, integration, system, and user acceptance testing to achieve high quality watch firmware, desktop, and mobile applications.
- Lead multiple firmware and mobile app projects to successful project completion through collaboration.

EDUCATION

DIPLOMA IN FULL STACK WEB DEVELOPMENT

Aug 2023 - Dec 2024

Red River College Polytech - Winnipeg, MB, Canada

BACHELOR OF SCIENCE IN COMPUTER ENGINEERING

June 2010 - April 2015

De La Salle University - Dasmarias, Cavite, Philippines

EXPERTISE

Technology stack: JavaScript, React.js, Vue.js, Typescript, VB.NET, C++, Java, .NET, .NET Core, C#, Ruby, Python, Docker, HTML5, CSS, SASS, JSON, XML.

RDBMS: MySQL, PostgreSQL, IBM DB2.

Application Tools: VS Code, Visual Studio, Eclipse, JetBrains Rider, JIRA, Git, GitHub, GitLab, Docker.
